

## Persona

Harry is eight years old. He has a little sister Danielle who is five years old. He cannot wait for Xmas. He also cannot wait for the ToyRUs Xmas book so he can start making his Xmas list for Santa.

Harry does not have a cell phone but uses his dad's. Dad promised to get him one for Xmas if he cleans his room once per week, takes out the trash and stops fighting with his sister (but she always starts it). For Xmas, Harry wants an Iphone, an Imperial AT-AT All Terrain Armored Transport Vehicle, The Clone Wars Ultimate Battle 5-pack - The Rise of Boba FET, the Nintendo DS New Super Mario Bros. 2 game and a puppy. Mom and dad are divorced and dad lives in an apartment but mom still lives at their old house so he thinks that Santa will bring the puppy there.

Aunt Jenny emailed Harry about a new website called Santa.com that also has an Iphone app. She wants Harry to sign up for the site so that she and grandma and grandpa can see the list of what Harry wants for Xmas. Dad went to the website and set up his profile so now Harry can go in and start his Xmas list and write letters to Santa.

## Task Analysis

- Create an account (may need adult help)
- Approve account (Adult only)
- Create a wish list
- Add a wish
- Remove a wish
- Tag a wish
- Add a fuzzy wish (a puppy or a donation)
